User needs to follow below steps to avoid **Issue**

Step 1: Open Internet Explorer

Step 2: Click on “Tools” menu

Step 3: Click on “Internet Option”

Step 4: Select “Security” tab

Step 5: Click on “Custom level” button

Step 6: Under “Miscellaneous” section

Step 7: “Include local directory path when uploading files to a server” → select **Disable**

Step 8: Click on “OK” button
